

Customer Segmentation

### Customer Segmentation by Behavior

Mutually exclusive behavioral segments: Inactive, High-Value, Repeat, and One-Time. Based on completed, quality-validated orders only.

|                 |                 |                          |
|-----------------|-----------------|--------------------------|
| Total Customers | Total Revenue   | Avg Revenue per Customer |
| 9.93K           | \$50,443,678.87 | \$5,079.93               |

| Segment Details |                |                 |                          |
|-----------------|----------------|-----------------|--------------------------|
| Segment Type    | Customer Count | Total Revenue   | Avg Revenue per Customer |
| High-Value      | 0              | \$0.00          | \$0.00                   |
| Repeat          | 0              | \$0.00          | \$0.00                   |
| One-Time        | 0              | \$0.00          | \$0.00                   |
| Inactive        | 9930           | \$50,443,678.87 | \$5,079.93               |
